u3a Ethos

Learn Laugh Live

- Self help education movement
- Run by members for members
- All members contribute
- Share knowledge and skills
- No payment - all volunteers

Frauds and Scams

Scammers target everyone and see charities and the elderly as weak links

- **Stay suspicious:** never share account numbers, always shred bills, be wary of unexpected emails.
- **Never respond to calls or emails** asking for access to your computer, or telling you that your broadband has been compromised, or threatening to disconnect you unless you make a payment
- If an offer seems **too good to be true**, it probably is.
- Beware of **fakes:** using fake goods adverts, fraudsters can embed malicious software on computers to gather personal details
- **HMRC** has warned that fraudsters are sending scam emails and text messages to mobile phones promising tax rebates to trick people into disclosing bank account and personal details. **DO NOT FALL FOR IT**

If you think you have been scammed, report it to
[actionfraud.police.uk](https://www.actionfraud.police.uk) or call **Action Fraud on 0300 123 204**
